Occupation: Marketing, Administration & International Business

Affiliations:

Trustee of the North Tonawanda Board of Education, Niagara County SPCA Board Member, Niagara County Youth Board Member, NTHS Academy of Business & Finance, NTHS DECA Alumni Member

Experience:

I was elected in May of 2017 to the NT School Board. During my tenure, I'm proud of the expansions in art, curriculum, counseling services, the completion of the fine arts center, and the capital improvement project.

The reason for running:

Experience, Reliability & Dedication is what is needed right now. During these uncertain times it is most important to strive to work to preserve & grow programs while planning for a fiscally sustainable future. The students are the focus and should have access to more than just required materials. It should be the boards endeavor to understand what offerings students, parents, and teachers wish to see.

If re-elected I plan on putting further emphasis on physical technology and new technology courses with the implementation of new STEM/STEAM programming, as well as continuing support for Reading, Writing, & Math Workshop initiatives. I am dedicated to school safety with championing the call for a 2nd School Resource Officer. School rankings also continue to be important to me, as they have improved since being on the board.

I also promise to continue to find ways to close budgetary gaps and implement best practices to avoid classroom or support staff cuts. It is my stance that tax levy increases are not the only solution to a sound fiscal footing for the district. This includes green initiatives that not only pay for themselves over a 10-year period but will also reduce usage and lower our carbon footprint.
