

# Community User Quick Start Guide

Hi community member, and welcome to ML Schedules™ K12 Facility Request Software. You'll find the software easy to use with online instructions and a Help site that guides you through the process of setting up an account and requesting spaces at your school district.

For those users who want additional guidance, this *Quick Start Guide* provides a brief overview of the request process as well as step-by-step instructions for account setup and requesting spaces by various parameters.

We're sure you'll find ML Schedules™ Software both easy to use and beneficial in terms of saving time and energy...not to mention reducing your school district's carbon footprint.

# How the software works

ML Schedules™ software moves the process you use to request facility space from your school district's office to **“the cloud”** which brings many benefits to you:

- **Saves time** with ability to search and request available District spaces 24/7 via a secure website.
- **Reduces approval times** based on automated email notifications to appropriate District officials.
- **Saves money** with reduced need for phone calls, hard copies, postage costs, and trips to District offices.
- **Reduces environmental impact** by eliminating the need for paper copies.

# People in the process

ML Schedules™ Software puts everyone involved with district Facility Use Requests on the same page including:

1. **Community users** like you.
2. **School administrators** responsible for managing the Facility Use Request process.
3. **Athletic Directors** and their staff responsible for managing Facility Requests for athletic fields and spaces.
4. **School Buildings and Grounds staff** responsible for the maintenance of District spaces
5. **School Business Officials** who need to approve all Facility Use Requests and who also manage invoices and payments for approved events.

Everyone involved in the process has instant access to real-time data via any web-connected device such as a home computer, tablet or smartphone.

# Supporting Media

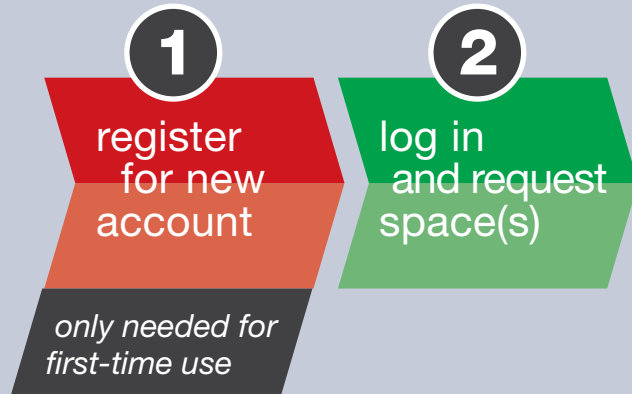

A wide variety of media is usually used by a District to process Community Facility Use Requests including:

- **Printed forms** such as a Facility Use Request
- **Spreadsheets** to track spaces
- **Phone calls** when requested spaces are not available
- **Emails** as another means of communication
- **Ledgers** to enter invoices and payments received
- **Log books** to track spaces
- **Snail mail** to send forms and invoices
- **Signatures** of Business Officials

ML Schedules™ Software consolidates data into one secure place—the cloud.

# First-Time Overview

The first time you use ML Schedules™ software, you will need to register for a new User account with a Group Name (e.g., for a youth sports team or Girl Scout troop).

You can also create multiple Group Names under one user account. Adding New Groups is described in the Log In procedure

This Account set step is only necessary the first time you use the software. After that, all you'll need to do is log into your district's ML Schedules™ software account using your e-mail address and password to search for and submit requests for a desired space(s).

Many districts require external (community) Group Managers to upload the Group's insurance certificate (in PDF or JPG format) and enter the insurance expiration date the first time you log into the system as described on page 11 of this Guide.

Classification

Class	Description
1	Classification I – School agencies or related organizations. The following agencies or groups shall be permitted the use of school building at no charge: all MasterLibrary CSD groups and organizations and Community Education programs. Scouts and governmental units are in this classification as long as they are not charging admission or doing a fund raising activity.
2	Classification II – Groups from classification I or youth groups who are charging admission. Senior citizen groups or special classified organizations who are directly working with the school on a particular activity with a benefit to the schools. Other non-profit organizations. Examples of this classification: Church Groups, Little League Football/Hockey/Baseball/Soccer, etc.; Scouts operating a fund raising activity; service club activity benefiting the cancer fund
3	Classification III – Residents using facilities that are in business classifications or private groups but not a part of a service club or school related or youth related program. This section is for non-fund raising type activities such as use of classroom or use of auditorium. These groups and agencies must have 75% of their users residents or employees from the MasterLibrary Central School District. Examples here would be local merchants having an activity days for their employees.
4	Classification IV – This eligible group must also consist of 75% residents or employees in the MasterLibrary CSD, but this particular need for facilities results in the attempt to gain profit from the activity. Example: would be a local service club supporting an activity that has no benefit to the local schools or organization that offers activities to the MasterLibrary residents for personal profit or fund raising.
5	Classification V – This is for all other groups not included in Group Classifications III and IV. An example of this is a state or region wide organization holding a program in our schools. This would not necessarily benefit our local program or community, but is deemed a program with a wider scope.

### 3-A. Request a Date and Time (cont.)

ML Schedules™ Confirm Request screen, bottom

The screenshot shows the bottom portion of the 'Confirm Request' screen. It includes several sections with expandable headers: 'ADDITIONAL INFORMATION', 'EQUIPMENT', 'PERSONNEL', and 'ATTACHMENTS'. Below these is a checkbox labeled 'I have made a request with MasterLibrary CSD before'. Another checkbox, 'I have read and agree to the District Terms & Conditions (view)', is highlighted with an orange line. To the right of this checkbox is an orange 'Request' button, also highlighted with an orange line. At the bottom, there is a footer message about K-12 school districts reducing carbon footprints with ML Schedules software, followed by a green recycling symbol.
