PARENT PORTAL

One way to monitor your child's progress is to sign up on parent portal. If you haven't done so already you can sign up at the North Tonawanda City School District website at www.ntschoools.org. At the right hand side of the blue banner across the top will be a parent portal link, clicking on this link will open up a panel on the left hand side of the webpage. Follow the link that says "create a parent account". Your child can also sign up for a student account following the same directions except following the last link and clicking on "create a student account". Doing so will allow you access to your child's current grades, homework assignments, and other grade information.

PLANNERS/HOMEWORK HOTLINE

Student planners are being provided for each student this year at no cost. It is an important skill to be organized and set up a nightly homework routine to make it a habit. Using this provided planner will help ensure all homework is completed in a timely manner. Having your child show you this the first couple of weeks will lead to a habit that will last the whole year. At times your child may forget to write down nightly assignments, don't fear the homework hotline is always available, and is updated daily. Just call

807-3720 and follow the prompt until team 7A comes up. Each class's assignment will be listed for that day of instruction. If by chance your child forgot something at school that is needed for homework the front main door closest to the main office will usually be open.
