

Physics Lab Report

Sections

- Intro
- Procedure
- Data
- Analysis
- Conclusion
- References

Intro

- What was the purpose of this lab
(Not- Mr. McClary Made Me!)
 - 1-2 sentences

Procedure

- Describe procedure for lab in paragraph form. *Not numbered steps!*
- Include a sketch/ diagram of equipment

Data

- Neat data tables

If data tables already exist in a neat form just list page numbers.

Analysis

- Make a decision based on measurement.
- Most often with a graph & trend

Conclusion

- What did you learn?
- What was unexpected?
- Sources of Error?
- Improvements for next time?

References

- Cite outside material. At least one for each lab.
