Get 3 red squares. Get 5 blue squares.

Materials

Number tiles 0–3, paper bag, 3 red squares, 5 blue squares

Oral Directions

TRY Pretend your squares are books. Take turns. Pick a tile. Say the number. Put that number of red books in the basket. Ask your partner to put blue books in the basket. The number of blue books should be 1 more than the number of red books. Check your partner's answer. Remove the squares. Put the tile aside. Play until the bag is empty.

TRY AGAIN If you have time, play again! This time make the number of blue books 2 more than the number of red books.
